

COME-ALONG SYSTEM

KEY FEATURES:

- Permits easy operation of multiple doors in a by-passing or bi-parting application.
- With the closing and opening of the leading door, will result in other doors stacking and moving jointly to the storage position.
- Available standard for 1-3/8" & 1-3/4" thick door applications. Other door thicknesses and heavy duty systems available upon request.
- Track, hangers, stops and bottom guide system hardware is separate from the come along system as each application varies in door sizes and weight.
