

Throw  
**A CURVE**  
into your Office  
or Home!  
**SPICE** it Up!

**KN CROWDER, A LEADER IN THE SLIDING DOOR TRACK INDUSTRY, CAN CURVE ANY TRACK YOU THROW AT THEM!**

KNC's curved door track system departs from the traditional and enables interesting spaces to be created using curved walls and doors.

Sliding doors, whether curved or straight, save tremendous amounts of floor space compared to hinged doors. Curved tracks can be side-mounted or top mounted inside a pocket. Almost all tracks and guide channels can be curved to meet the exact specified dimensions. With a 36" [914 mm] minimum, any radius can be accommodated in any arc length. The curved sliding door track system is quiet and durable and ensures that the door's glide is extremely smooth. KN Crowder is committed to innovation. We provide the sliding door industry with quality engineered, durable and time-tested hardware through our Crowdertrack line of sliding door products. Crowdertrack is as 'smooth as flight'.
