CATCH'N'CLOSE®
Closes safely and silently

ZERO CLEARANCE CATCH'N'CLOSE HANGER

CCD-410
Up to 150 lbs. [68 kg] per door

Our bypass systems are now available with Catch'N'Close.

This kit includes our zero clearance hangers which reduce light and sound entry, along with the visual space between the track and the door, making it the ultimate bypass system.

As always, our nylon wheels with precision ball bearings allow for smooth and quiet door operation. The addition of the Catch'N'Close closing system enables the door to glide into position without any assistance.

Available in clear, bronze or black anodized, mill finish or powder-coated.

How to Specify/Order:

Kit Code: CCD-[]-410 X [track length] 2DR KIT

[] = maximum door weight (75 for 75 lbs. [34 kg] or 1 for 150 lbs. [68 kg])

Note: [track length] = door width x 2 (for 2 door kits)
