

CATCH 'N' CLOSE®

Closes safely and silently

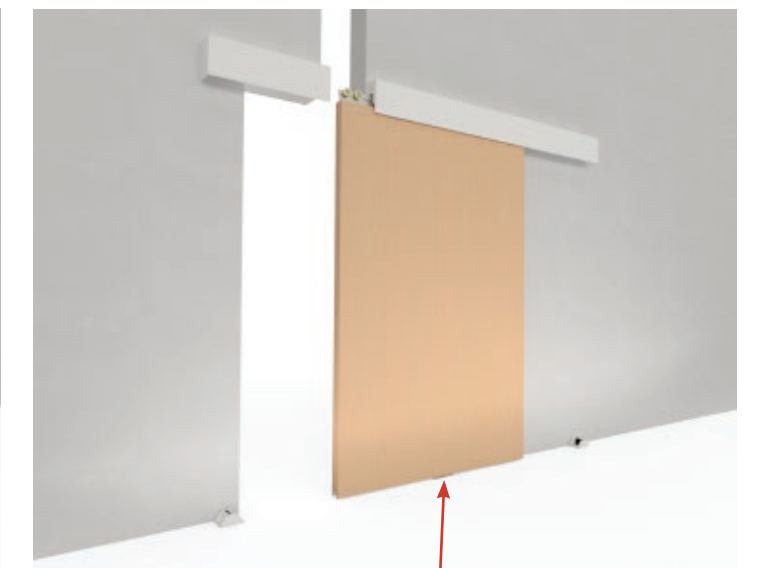

CANTILEVER DOOR SYSTEM

Our Cantilever System is essential for hospitals, assisted living spaces, or anywhere you would need a gap in the track. This system allows for a sliding door to travel over an opening in the track as wide as 16" [406mm]. These gaps are designed for specific needs such as a patient lift tracking system travelling from one room to the next. Our Catch'N'Close closing system enables the door to glide into position without any assistance. Available in clear, bronze or black anodized or a custom finish.

Heavy-Duty Floor Stop

Guide System

How to Specify/Order:

Please contact KN Crowder at customerservice@kncrowder.com or 1-866-999-1KNC(1562) for more information.
